Older adults expereincing behavioral health issues that impact housing retention receive outreach mental health services.

Program Summary

The MDT program serves approximately 1,200 older adults annually via referrals from ADVSD Adult Protective Services (APS) investigators and case workers. Older Adults that are experiencing behavioral health issues that impact their ability to maintain a safe and healthy living situation receive mental health outreach services that; evaluate, provide immediate resolution services and coordinate on-going behavioral health services that are culturally responsive and specific to older adult treatment and care needs. Mental Health Specialists work with ADVSD case managers in five Multi-Disciplinary Teams, one in each branch office of ADVSD, to address barriers in obtaining medical, mental health or legal type interventions. The majority of participants in the program, approximately 80%, experience improvement in their ability to maintain housing and access to needed treatment and care services.
