Hi Kevin.

I was walking in the Burlington Creek Forest today, 3/21/18, at 11:25 AM.
I came across what looks to me as elk tracks.
This print is more than 1/2 of my size 14 shoe.

This was on the south end of the loop trail after it ascends near the quarry.
The road was trampled with many footprints.
There is a steep rutted elk trail coming down from above the road and the forest between it and NW McNamee Rd.

A photograph of a handwritten signature in black ink on a light-colored background. The signature reads "Michael S. Baker" in a cursive script.
