

# EARTH MONTH *Events*

This April, celebrate Earth Month at Multnomah County!

## Why We Love Native Plants (and why you should, too!)

Thursday, 4/5/18, 12 - 12:30pm

Multnomah County East, 600 NE 8th Street, Gresham, Blue Lake Room

*- Light lunch provided -*

Why are native plants so great? You'll use less pesticides, fertilizer, and water, and create habitat for pollinators, to name a few reasons!

East Multnomah Soil & Water Conservation District will introduce you to common native plant communities and share successful planting tips that will help them thrive. You'll leave with all the information you need to decide which native plants will work well in your yard.
