

EARTH MONTH *Events*

This April, celebrate Earth Month at Multnomah County!

Renewable Energy in the Northwest

Thursday, 4/12/18, 12 - 12:30pm

Multnomah Building, 501 SE Hawthorne Blvd., #635, Portland

- Light lunch provided -

What's so great about renewable energy?

Wind, solar, and geothermal power are abundant natural resources in the Northwest, and provide big environmental and local economic benefits.

Join Renewable Northwest's Executive Director to learn about current trends and projects underway in our region. We'll also touch on how an individual's energy purchasing decisions can make a big impact on our community and environment.
