The General Ledger program manages central financial accounting and reporting, including the annual external financial audit, the comprehensive framework of internal controls, as well as general countywide accounting support and assistance.

## **Program Description**

The General Ledger (GL) program supports and monitors the County's financial accounting activity by performing corporate level accounting functions including account reconciliations, review/approval of accounting transactions and preparing required financial reports.

The primary product is the County's Annual Comprehensive Financial Report, which includes all activities associated with the required annual external financial audits. The report earns the Government Finance Officers Association (GFOA) award annually for excellence in financial reporting. This award indicates management has prepared financials that meet the reporting standards and requirements noted by GFOA. Approximately 3% of governmental entities in the United States receive this award annually.

General Ledger prepares the financial reports for three component units of the County: Mid-Multnomah County Street Lighting Service District No. 14, Dunthorpe-Riverdale Service District No. 1, and the Multnomah County Library District. GL also maintains internal controls and the chart of accounts.

## **Explanation of Revenues**

This program is supported by General Fund revenues.

External revenue is received from the County's separately issued component unit financial reports: Mid-Multnomah County Street Lighting Service District No. 14, Dunthorpe-Riverdale Service District No. 1, and the Multnomah County Library District. The revenues are a reimbursement for central accounting and reporting services provided to each component unit.
