**Program Description**

The Property and Liability Risk Management Program (P&LRP) purchases property insurance, marine coverage, crime coverage, excess liability, excess medical malpractice coverage, bonds, and other specialized insurance coverage for the County. Where the cost of insurance prohibits purchase or coverage is not available, we self fund losses. With the focus on equity and risk tolerance, transfer and control, the P&LRP recommends the types/limits of insurance for contracts, recommends the purchase of specialized insurance and develops countywide policies and procedures related to loss prevention and control. The P&LRP designs and implements risk management strategies for the prevention of risk exposure and property and liability loss countywide. The P&LRP initiates subrogation efforts when indicated and works to achieve maximum reimbursements from third parties and distributes those reimbursements back to program that incurred the loss.

The program adjusts property loss claims, and oversees the Third Party Administrator contracted to process general liability insurance claims for the County. Litigation and large general liability insurance claims are settled with expertise from the County Attorney's Office. The County chooses to self-insure (retain a certain amount of financial exposure to loss) and purchases property and excess liability coverage for large property and liability related claims. This decision controls the loss adjustment process, minimizes our "total cost of risk" (uninsured claims costs + insurance costs + administrative costs), and motivates internal loss control behavior. A department's internal property and liability allocated charges are based on their past losses using actuarial data and historical loss data to determine cost percentage rates based on anticipated future losses. This process allows for equitable distribution of financial losses.
