Central Human Resources (CHR) Services provides key programming and services to support employees throughout their careers. CHR Services furthers Multnomah County’s ability to attract, train, and retain a diverse, high performing, and supported workforce by advancing best practices in workforce equity, recruitment, onboarding, learning and professional development, leadership development, conflict resolution, performance planning and review, and career pathways. Through collaboration and partnership, CHR Services enables Multnomah County to fulfill and advance countywide recommendations from strategic plans and employee feedback trends.

Program Description

Organizational Learning provides a wide range of services including culturally responsive training, leadership development, facilitation services, conflict resolution, learning and mediation support, and professional development opportunities for the general workforce. Organizational Learning maintains the County’s Core Competencies, the skill sets that help County employees promote our values of safety, trust, and belonging. The Leadership Development Program delivers programs that increase manager accountability, strengthen knowledge of county processes and policies, and build the interpersonal skills that promote a culture of safety, trust, and belonging in the workplace.

Talent Acquisition focuses on recruitment strategies, screening and selection best practices, new employee experience, and workforce pathways that promote the County’s mission to build a diverse and talented workforce. The centralized function serves as a subject matter-expert, provides guidance to departmental recruitment resources, and facilitates the countywide Employment Committee. The College to County Mentorship Program, a workforce pathways initiative focuses on the development of college students from underrepresented communities by offering paid internship opportunities in County projects across departments and matches participants with a trained mentor.

HR project and change management focuses on countywide HR projects that respond to the highest priority needs identified by internal priorities (ex: Workforce Equity Strategic Plan, HR Audit) and external industry best practices related to the field of Human Resources. Dedicated internal communications resources provide employees timely and accessible information on county management policies and resources relevant to employee experiences and expectations.

Centralized performance planning, coordination of departmental orientation and onboarding efforts, and career development training also provide services to employees throughout their lifecycle and help to advance overall workforce growth and success.
