### Executive Summary

Central HR Classification & Compensation (Class Comp) provides pay and classification structures necessary for the County to offer competitive pay and appealing career paths. Class Comp provides the pay and job profile frameworks that facilitate external competitiveness, ensure internal equity, promote employee retention and support career growth. The team identifies and analyzes job duties and qualifications that define the scope and complexity of work performed. It also researches labor market pay data in support of all unions and management job profiles for the most accurate indicator of prevailing wages and salaries for comparable jobs.

### Program Summary

Class Comp aligns practices with County organizational values of safety, trust, and belonging by acting as a neutral function, following procedures established by county code, personnel rules, and collective bargaining agreements to review requests from a centralized perspective. Giving employees the opportunity to have their position reviewed in the reclassification process helps to ensure equity among how positions are classified and compensated.

Class Comp impacts a large percentage of the total County workforce by ensuring positions are allocated at the appropriate level, job profiles are written accurately, and that compensation within our job profile structure is competitive with the public sector market. These efforts ensure equitable work assignments and compensation, which ultimately result in processes that are consistent with the Oregon Equal Pay Act.

Program outcomes are measured for Class Comp based on the number of positions impacted by classification and/or compensation studies, new positions classified, and positions reclassified. Reclassifications and studies directly impact our current workforce and new positions allow for the County to hire staff needed to deliver more effective and new services to the public.
