Executive Summary

Inmates in the Multnomah County Detention Center (MCDC) often have diagnosed mental health issues, can be experiencing depression, and are usually at a time of crisis in their lives. The Sheriff's Office has set suicide prevention as a primary goal and is committed to providing a safe and secure housing environment for all inmates in MCDC by structuring the buildings, dormitories, and cells to be free of any hazards, including ones developed by inmates. This program offer improves MCDC by funding the replacement of wall-mounted cell lights and completing the cell window cover project.

Program Summary

At the Multnomah County Detention Center (MCDC), the design of the existing detention light fixtures creates a gap between the wall and the fixture. This gap can't be filled with epoxy because the entire housing must be removed in order to replace the bulb.

The Facilities & Property Management has identified maximum security replacement fixtures which would eliminate the gap, thus, reducing the risk of suicide attempts. These new security fixtures are also equipped with LED lamps, providing up to 50,000 hours of useful life, and a significant energy cost savings over the existing bulbs. This program offer would replace the current wall mounted fixtures in all 448 cells at MCDC.

The Multnomah County Detention Center Jail was originally designed with cell window frames that have exposed edges which are a safety concern for inmates and staff. The frames themselves have edges that sheets can be tied to, and also there can be cracked and exposed grout by the frame which can be broken out and used for weapons. A project was started in 2011 to use a protective metal frame covering the exposed existing frame edges in each cell. To date the 4th and 8th floors have been completed, but floors 5, 6 and 7 still have 75 cells that need to have this suicide risk addressed. This program offer provides the funding to finish the project.
