

Theory of Change: Stands Out

- Whole family approach, and how to measure
- Based on data
- Comprehensive – where are the implementation barriers?
- Be clear in language, Inclusive – does that mean culturally responsive?
- Relevance of trauma informed
- Socio-emotional could be carved out
- Emphasis on racial justice –seems to be a model
- Definitions are helpful
- Specific language re. accountability
- Data recognized intersectionality of race and poverty

Theory of Change: Importance

- Gives visibility to culturally specific- don't have to frame work as everybody
- Focus on school setting and leverage
- Intentionality of language- informed by racial equity expertise; also woven through RFP
- Integration and systems working together
- Targeted services – systematizing the notion of partnership
