

Small Group Discussions on “Alignment with Other Systems” and “New Partner and Funding Sources” (November 3, 2017)

Alignment with Other systems

- How does alignment relate to Council?
- Bringing SUN into other networks
- Mapping of our assets that already relate
 - Ex Parks teen program, P-3 and Early Learning, Economic empowerment
- SUN hasn't historically been nimble enough to align with other systems
- Alignment is a combination of funding and outreach conversations
- Need to define points of alignment
- Collective return on investment
- School districts need to move quickly on mandates due to legislation, but that doesn't lend itself to alignment with other systems
- Need a structure for regular review of goals to see where goals align
- Mapping of school improvement plans and action plans
- During outreach, ask what are your top 3 priorities
 - Gather priorities of other systems
 - Need mechanism to reprioritize items for alignment
- This prioritization process needs to be triangulated with Broader Community Engagement
- Who would we miss if we're only using our current outreach plan?
 - Violence Prevention
 - Juvenile Justice

New Partner and Funding Sources

- Research national foundation/corporation opportunities
- Partnership with group of foundations with education focus (collective effort)
- Connections/endorsement by member organizations/philanthropy groups
- Explore champion (sustained/long term) at different level (state legislators?)
- Blazers
- Business – identify ones looking to have larger community or system impact (OBC, PBA?)
- Next steps
 - Understand depth of layered services and impact
 - Do some research – philanthropy groups, state, businesses
