2019 State Community Services and Supports Unit Training
(Conference call and/or Webinar)

GetCare (ADRC) Report training:

This training is for anyone wanting to know more about the Report module which includes both "canned or library" reports and/or custom reports. Presenter gives some Excel tips, too as most of the custom reports come out as excel spreadsheets. She will walk you through some of the reports already in the system, but you can bring your specific questions or reports you are thinking about (or email them to her before the training) and she will work with you on them.
