Executive Summary

The Department of County Assets (DCA) Director's Office is accountable for leadership in the oversight and management of county assets including information technology, facilities and property management, fleet administration and maintenance, motorpool, records and archive management, distribution services, and the related functions. The Director's Office is also responsible for ensuring department-wide engagement in important county-wide initiatives including Diversity and Equity, the Climate Action Plan and the Wellness Program.

Program Summary

The Department of County Assets (DCA) aligns the management of specific County assets including information technology, facilities and property management, fleet operations, records, and distribution services. The goals of DCA include managing physical assets and the associated costs to ensure that the County's limited resources are invested where they are needed most. DCA management provides leadership, strategic direction, and operational assessment and accountability to ensure these goals are met.

The organization also includes an administrative services hub providing Human Resources and Administration, Procurement and Contracting, and Budget and Finance services. The hub provides these services to DCA, the Department of County Management (DCM), the Chair's Office, the Board of County Commissioners, and other non-departmental entities. The hub is designed to eliminate duplication of resources and streamline processes through economies of scale across these groups.

Additionally, the department includes the county-wide Strategic Sourcing initiative. Strategic Sourcing moves the county to an industry standard practice of commodity planning and sourcing with "just in time" purchasing and direct shipment of office supplies and similar commodities. A county-wide "Strategic Sourcing Council" provides governance and decision-making.
