Executive Summary

The Budget and Planning team provides financial planning, forecasting, and reporting services to the Department of County Assets (DCA). The team develops the countywide cost allocations and recovery for DCA's internal services. Equity is incorporated throughout all phases of the budget process, from development and planning through implementation, measurement, and evaluation.

Program Description

This program is a DCA administrative program and reports to the DCA Director. Services are provided to DCA divisions, County departments, and external stakeholders. These services include providing planning and structure for the DCA funding, allocating costs equitably across the County and within DCA divisions, providing tools for budgeting and modeling scenarios, monitoring budget to actual spend to ensure funding decisions are meeting intended targets, aligning with DCA and County values around equity and inclusion to understand whether underserved populations are impacted by funding decisions.

This program coordinates countywide annual internal service rate development and capital planning, monitoring and reporting on internal services, countywide asset management, capital improvement funds and large capital projects. The team also prepares monthly internal service cost allocation journal entries to recover costs from County departments and external stakeholders. The program provides recommendations and data on internal cost allocation methods and strategies, capital planning and spending, and planning for long-term obligations.
