Executive Summary

Vehicle replacement planning is provided as an interdependent function within Fleet Services (program offer #78039). The key objective is to administer the life-cycle replacement schedule and collection of replacement funds on assigned vehicles and equipment (capital expenditures). This service is responsible for keeping Department customers supplied with vehicle and equipment options that support their core operational missions.

Program Summary

Fleet Services, through the Fleet Vehicle Replacement program, provides the following services:

- Collects and manages the funding for future replacement of vehicles and equipment;
- Specifies, bids, awards, receives, inspects, prepares for service, and assigns replacement vehicles and equipment;
- Administers the vehicle and equipment re-sale program (surplus disposal), using revenue received to offset future vehicle and equipment purchases;
- Establishes and administers the life-cycle replacement schedule used to determine collection of replacement funds on assigned vehicles and equipment. The collected funds are used to buy new vehicles after the predetermined years of life are met;
- Collaborates with departments and programs to evaluate the following elements when considering purchase of a new or replacement vehicle or piece of equipment: vehicle utilization (miles driven/time of operation); department/program needs; current working condition of vehicle; vehicle downtime and predicted future repair costs; safety; and sustainability;
- Ongoing evaluation of opportunities for electric and hybrid vehicles when purchasing new vehicles. The Fleet Vehicle Replacement Program is the primary contributing factor to the following areas in the Local Government Operations component of the 2009 Climate Action Plan:
 - 18-6 "...meet minimum fleet fuel efficiency standards and use low-carbon fuels.";
 - 18-7 "Buy electric and plug-in hybrid vehicles for City and County fleets as they become commercially available."

Explanation of Revenues

Vehicles and equipment are placed on an established life-cycle replacement schedule. Replacement funds are collected on a monthly basis from programs with assigned vehicles and equipment and aggregated until specified useful life has been met. Proceeds from vehicle sales are returned to the Fleet fund to offset future replacement costs. One-time only revenue was received in FY14, Program Offer #78031, to bridge a replacement funding gap for aging vehicles in the Fleet. This money, \$1.2M, will be spent over a 3 year period, FY 2014-FY 2016, with the majority of those dollars spent under the County's Strategic Sourcing initiative to ensure best value and reflection of the County's overall mission. Procurement of these vehicles are being tracked as a discreet performance measure.
