This unit works collectively with the other DCA Administrative Service Hub units to deliver services to both departments and divisions supported by DCA and across the entire County.

Program Summary

This offer focuses on the development, implementation, oversight and direct delivery of the strategic sourcing practices across the County. This organizations reports to the Manager of Strategic Sourcing, Procurement and Contract Administration, who reports to the Director of DCA.

The program includes Strategic Sourcing Analysts and Strategic Sourcing Data Analyst in order to provide strategy, leadership, practice development, oversight and monitoring, detailed spend analysis, strategic sourcing plans and compliance analysis/oversight for hundreds of contracts and millions of dollars each year.

This program is responsible for addressing the strategic sourcing needs of all County Departments across all commodities and types of transactions, which includes commercial, personal services, construction, lease, software, technology goods and services, maintenance and repair, and architectural services. Support also includes collaboration with departmental partners in the review of Administrative Procedures, policies and the implementation of best practices as necessary, in support of strategic sourcing initiatives.

Strategic Sourcing is the practice of taking a holistic approach to the selection and sourcing of goods and services necessary to an organization's operations. This effort includes several key tenets or procurement best practices: (1) Consolidating spend across all buyers with a small number of supplier partners so that the best prices can be achieved, (2) Considering the total lifecycle cost of a product and service (not just the purchase price) when making a procurement decision, (3) Building mutually beneficial strategic partnership relationships with key suppliers, (4) Leveraging the capabilities and services of supplier partners to reduce internal operating costs, and (5) Leveraging technology to reduce operating costs, better manage spend and achieve better prices.
