Executive Summary

The Capital Improvement Program actively monitors, upgrades, and improves the County's portfolio of Tier II and III buildings. The program preserves the County's assets by investing in improvements that maintain building values and provide accessible, functional, and energy efficient facilities for the operating programs that use them.

Program Summary

The Capital Improvement Program (CIP) provides funding for the annual 5-year Capital Plan that focuses on the County's 18 primary owned Tier II and III buildings. A Tier II building is one that is a desirable part of the County's long-term portfolio but has significant deferred maintenance needs which must be addressed. A Tier III building is one that is not economical or is impractical to bring to County standards and is therefore designated for disposition. Capital expenditures are avoided or minimized in Tier III facilities pending disposition of the building, if possible. The plan works in conjunction with the Facilities Strategic Plan which provides a basis for a sound investment strategy that addresses building needs and includes projects ranging from equipment upgrades to construction of new facilities over a 10 year horizon.

The program allows Capital fees, bond/levy, grants, and other funding components to be distributed based on priorities established with the aid of a detailed needs assessment and a decision-scoring matrix. The program looks for project efficiencies that benefit the building users and extend the useful life of the building.

The 5-year CIP Plan sets clear goals and fosters communication with departments as well as providing a tool to facilitate collaboration with both internal and external clients and building users. The program uses a PULSE (Planned Useful Life - System Evaluation) database to track building system life cycles.

Implementation of the Facilities Asset Strategic Plan (FASP) will also impact future capital needs. Efforts are underway County-wide to work on our building portfolio's recapitalization needs, which the current 8% annual CIP revenue increases are not adequate to address.

Performance Measures						
Measure Type	Primary Measure	FY18 Actual	FY19 Purchased	FY19 Estimate	FY20 Offer	
Output	Percent of projects planned for completion during a fiscal vear that are completed in that fiscal vear.	56%	80%	80%	80%	
Outcome	Percent of Primary Owned Buildings rated as Tier 2 & 3.	42%	46%	47%	46%	

Performance Measures Descriptions

PM #1: Percent of projects planned for completion during a fiscal year that are completed in that fiscal year. FY18 was a challenging year with a backlog of work and staff turn-over. The FY19 plan looks more realistically at the number of projects that can be completed this fiscal year, and the FY20 year plan is based upon the assumption of increased staff load to catch up on backlogged projects.

PM #2: Percent of Primary Owned Buildings rated as Tier 2 & 3. Targeting decreased percentage over time.

Legal / Contractual Obligation

There are a number of projects carrying over into FY 2020 that have contractual obligations to vendors and/or service providers.
