Executive Summary

The Strategic Planning and Projects Program is responsible for developing, implementing, and tracking performance against the Facilities Asset Strategic Plan. The program delivers large scale facilities construction projects, evaluates and recommends strategic portfolio opportunities including acquisitions, dispositions, major project development, renovations, energy efficiency measures, and strategic programming.

Program Summary

The Facilities Strategic Planning and Project program includes the ongoing efforts relating to the Facilities Asset Strategic Plan (FASP); new and major redevelopment construction projects; property disposition and acquisition; pre-development and evaluation of major portfolio projects; and the County's energy and utility strategy responsible for achieving Climate Action Plan goals, tracking buildings carbon emissions and the Energy Savings Performance Contract.

Phase II of the Facilities Strategic Planning initiated the assessment of potential renovation, modernization and seismic to determine the cost/benefit of specific investments in the portfolio. Condition assessments, cost estimates and programming evaluation continued in FY 2017. In FY 2018, the program focus is on continuing the assessments on medium and poor performance buildings and commencing on the cost/benefit analysis to identify investment priorities.

The County envisions completing \$300 million to \$400 million of new facility construction, remodeling, redevelopment and recapitalization over the next decade. This program is responsible for real estate development, engineering design, construction, and project management for new construction and/or repair and alterations for complex, multi-use, public facilities. This includes performing complex risk management, public process and other management functions. Integrating several disciplines into the design to achieve efficient building operations and maintenance is of utmost importance.

Performance Measures

Measure Type	Primary Measure	FY16 Actual	FY17 Purchased	FY17 Estimate	FY18 Offer
Output	Number of dispositions of surplus property completed	2	2	0	1
Outcome	% of County's carbon footprint reduced for owned facilities operations by 2%/yr (per Climate Action Plan)	2%	2%	2%	3%

Performance Measures Descriptions

PM #1: Dispositions of surplus and underutilized property is a function of long term portfolio management to reduce operating costs and invest proceeds into valuable assets.

PM #2: The reduction of carbon emissions supports the sustainability goals outlined in the Climate Action Plan jointly supported by Multnomah County and City of Portland.
