Executive Summary

The new Central Courthouse will replace the functionally obsolete 100 year old existing courthouse. The new courthouse will incorporate the current standards in courthouse design and construction, energy efficiency as well as operational and maintenance efficiency.

Program Summary

The current Multnomah County Downtown Courthouse is functionally obsolete and is in need of replacement. DAY CPM is acting as the Owner's Representative and assisting the County in delivering the project.

The County has procured the services of the SRG who have partnered with CGL Ricci Greene as the project architect to perform the design, and Hoffman Construction to construct the courthouse using the CM/GC (Construction Manager/General Contractor) method. The architectural design team is completing the final design of the courthouse with input from various users and stakeholders. During the design phase the architect and CM/GC collaborated on the design to meet the project values and goals. The CM/GC will prepare detailed cost estimates during the design phase and develop value engineering alternatives. The Contractor will start major construction in FY 2018 including installing the deep foundations, placing the concrete for each floor and starting installation of the facade of the building.

Performance Measures

Measure Type	Primary Measure	FY16 Actual	FY17 Purchased	FY17 Estimate	FY18 Offer
Output	Complete installation of the deep foundations	N/A	N/A	N/A	1
Outcome	Percent of deep foundation completion required to allow the construction of the tower to begin	N/A	N/A	N/A	100%

Performance Measures Descriptions

PM #1 Output: The metric (output) is completing the installation of the deep foundations in order to construct tower
 PM #2 Outcome: 100% completion is required for the construction of the tower to begin.
