Executive Summary

The Library Construction (Capital) Fund is a Capital Program designed to create a self-sustaining fund which provides for the continuing reinvestment and capital work required to keep the Library District's buildings safe, reliable, functional and efficient.

Program Summary

The Library Construction (Capital) Fund program creates accessible, functional and energy efficient facilities that provide Library services with space that meets their program needs. The program focuses on the Library District's 15 owned buildings and provides the funding to complete capital projects within these buildings. Capital funding is intended to support replacement or repairs to essential building elements such as roofs, plumbing, electrical, heating ventilation air-conditioning (HVAC), Americans with Disabilities Act (ADA) modifications, seismic upgrades, and interior finishes that keep buildings functioning and optimizing their potential. The program prolongs building life and provides the Library District with assets that are worth their market value. It creates more usable buildings through planned upgrades in equipment and systems intended to meet changing program needs.

The Library District Capital Plan is managed via the annual 5-year Capital Plan that focus on short-term requirements that are integrated with the long-term Library District facility needs.

The Capital Plan is based on a comprehensive database which identifies all projected replacement needs in Libraries over three decades and then prioritizes and schedules needed work in the future. This allows the Library Capital fund to be invested based on priority, and optimizes return on investment.
