Program Characteristics: In Target

Executive Summary

This program offer will fund essential repairs to the Multnomah County Sheriff Office (MCSO) River Patrol boathouses and related facilities. These repairs will address immediate life safety, code and seismic deficiencies, roof-related upgrades, and repairs that require immediate attention to prevent further degradation of the structure.

Program Summary

This carryover project is currently in bidding and jurisdictional review, and the most critical work is currently under construction. All construction work is expected to be completed and the project closed out in FY21.

A study was commissioned by Facility and Property Management (FPM) and completed in February, 2018 to determine the scope of deferred maintenance required for the MCSO River Patrol boathouses, docks, and ramps, eight structures in total. Deferred maintenance in the amount of ~\$2 million+ was identified by the contracted architecture/engineering firm. Of the ~\$2 million+, approximately half is considered to be essential to address immediate life safety, code and seismic deficiencies, roof-related upgrades, and repairs that require immediate attention to prevent further degradation of the structures. We currently have an imminent danger correction notice for all Columbia River Patrol boathouses from an electrical inspector to prevent Electrical Shock Drowning (ESD).

Structures identified that need improvements include: B496 Willamette River Boathouse and ramp/landing; B307 Columbia River Gleason Landing River Patrol, B493 Boathouse 1, B494 Boathouse 2, and B495 Boathouse 3, and the fueling dock; B309 Columbia River Chinook Landing Boathouse; and the B499 Columbia River Bonneville Boathouse.
