Executive Summary

This program offer is to design and deliver a new Animal Services facility that supports Multnomah County Animal Services' operational needs and furthers its goals to provide equitable services to the public and high quality care to the animals in the shelter.

Program Description

Multnomah County Animal Services (MCAS) is the county's sole public animal shelter and control agency. MCAS protects the health, safety and welfare of people and pets throughout Multnomah County, including the cities of Portland, Gresham, Troutdale, Fairview, Wood Village, Maywood Park and all unincorporated areas, 365 days a year. MCAS is currently located in a facility in Troutdale that was constructed in 1968. The facility doesn't meet the current or future operational needs of the program. Per the 2015 Facilities Asset Strategic Plan, the shelter is one of the lowest performing facilities in the County's portfolio. The goal of this program is to develop a new Animals Services facility that supports the program's operational needs and furthers its goals to provide equitable services to the people and high quality care to the animals in the shelter.

This project will deliver a new, efficient, modern, flexible, sustainable and responsive facility for MCAS. The facility will be sited and designed with the goal of providing equitable services to county residents and to enable the program to serve people and pets with excellence. The new shelter will provide greater access to the public and promote health and safety for staff, visitors, and animals. This project aligns with County and Department Values by integrating access, equity, health, safety and inclusion into both the development process and the qualities of a new facility. The new facility will lead in sustainable practices with a focus to long term operational efficiencies. This project will seek input from all key stakeholders throughout this development process. These stakeholders include the public who receive services, staff, leadership, animal welfare partners. The project team will develop a webpage to share project updates similar to other major capital projects

It is expected the full development of this project will be greater than \$1.0M, therefore this capital development project will comply with the FAC-1 Administrative process. The Programming and Concept Plan will be completed in March 2023. The FAC-1 Preliminary Planning proposal will be brought to the Board of County Commissioners in the first half of FY 2024. This will authorize the next steps in the development of the New Animal Service Facility.

Explanation of Revenues

In 2016, the Board of County Commissioners adopted Resolution 2016-069, directing that the proceeds from the sale of the Edgefield North property, also known as the Pig Farm, be used toward the rehabilitation or replacement of the MCAS shelter.

In FY 2023, \$500,000 of sale proceeds was transferred out of the Animal Control Fund 01508 that were previously transferred from the General Fund in FY's 2019, 2021 and 2022.

In FY 2024, \$491,011 working capital carryover from FY 2023.
