

Program #78301A - IT Innovation & Investment Projects FY 2024 Department Requested

Department: County Assets **Program Contact:** Tracey Massey
Program Offer Type: Existing **Program Offer Stage:** Department Requested
Related Programs:
Program Characteristics: In Target

Executive Summary

The IT Innovation and Investment Projects offer provides funding and governance for projects within the Technology Improvement Program. The offer provides continued funding for projects currently in progress as well as funding for replacement of high risk software applications and priority system initiatives. The IT Projects and Portfolio Management group manages the capital expenditures for this program offer.

Program Description

The Technology Improvement Program (TIP) is designed to address obsolete technology identified through technology lifecycle management. The projects addressed through the TIP are identified through the Technology Fitness Assessment conducted every other year. These systems are used by programs throughout the County focused on serving our residents - allowing County staff to efficiently and effectively perform their job responsibilities.

There is an extensive list of systems to be remediated due to outdated and obsolete technologies. The list is continually reevaluated and re-prioritized, and work is planned in alignment with resource availability within IT and the programmatic department. In FY 2023, the County invested \$2.0 million one-time-only as an initial investment to fund the TIP program in addressing capital reinvestment and lifecycle management. The 2023 Fitness Assessment is in progress in the winter/spring of 2023. The outcome of this assessment will identify systems need of lifecycle remediation.

Progress on these system replacements are posted to the County's intranet, Multco Commons.

Performance Measures

Measure Type	Primary Measure	FY22 Actual	FY23 Budgeted	FY23 Estimate	FY24 Offer
Output	Percent of projects monitored per monitoring process.	100%	100%	100%	100%
Outcome	Strategic reports shared with leaders improving transparency.	12	12	12	12

Performance Measures Descriptions

PM #1 - 100% of the funded projects will be monitored by the IT Senior Leadership.
 PM #2 - This measure ensures that information and data concerning strategic IT projects are consistently and transparently shared with County leadership.
