**Program Offer Type:** Innovative/New Program **Program Offer Stage:** As Requested

**Related Programs:**
**Program Characteristics:** One-Time-Only Request, Out of Target

**Executive Summary**

The Technology Improvement Program focuses on investing in new technologies and addresses the risk of obsolete existing technologies through a periodic Fitness Assessment to identify and mitigate the risk of service interruptions as part of the strategic goal around Risk Management. This offer supports the replacements for Non-Medical Transportation and EP&R systems.

**Program Summary**

This offer includes the replacement of two aging systems.

**Non-Medical Transportation:** Non-Medical Transportation allows Case Managers to authorize, track and report on client usage of the Non-Medical Transportation program whereby clients can use various modes of transportation to get from point A to point B within the County for non-medical reasons.

**EP&R:** This application is used by the Health Department's Emergency Preparedness & Response Program to track emergency roles & IMT assignments along with training, experience, and KSA qualifications. Our goal is to find a better system for storing employee training, experience, and qualifications.

Equity is incorporated throughout from development through support, and is specifically important because of the public nature of this program offer. Additionally all services include understanding and defining business needs and risks, recommending effective and innovative technology solutions, constructing and upgrading platforms as required, and ensuring the integrity and security of the platforms.
