Executive Summary

The Telecommunications program manages all voice and video communication services for over 6,000 County and partner employees. The services provided by this program facilitate communication with citizens, business partners, and employees.

Program Summary

The County maintains an enterprise voice system that processes over 25,000 incoming calls and voicemails each day. This program coordinates the installation and maintenance of all voice equipment and associated technologies including wiring, switching and routing equipment, desk phones, call center consoles and connectivity to the public telephone system. Telecom is responsible for supporting phones and applications for over 6,000 customers across all County locations. Telecom works closely with departments to identify communication needs and then implement technologies to address them. Key services supported by this program include all County call centers, such as the Mental Health Crisis line. Large projects coordinated by Telecom including office relocations, new facility provisioning, and remodeling. Telecom also manages the acquisition, configuration, and maintenance of video conferencing units at multiple locations. These are used heavily by the State Courts, Department of Community Justice, and Public Defenders.
