**Program Characteristics:** In Target

**Executive Summary**

The Desktop Services program supports end users with desktops, laptops, tablets, smartphones, printers, multifunction device vendor management, iPads and other personal computing devices. This includes hardware and software procurement, installation, upgrades, maintenance, asset management and proper disposal of all devices. Remote and on-site support are provided to improve user productivity.

**Program Summary**

Desktop Services manages more than 7,000 County devices (desktops, laptops, tablets, printers, multifunction devices, iPhones, iPads and other personal computing devices). PCs for public use in the libraries, assessment & taxation and land use planning are also supported to provide residents and visitors with access to view public records on-line. The desktop team is responsible for life cycle management (renewal and replacement), software upgrades and inventory management for all desktop devices. Desktop support staff follow best practices for standardization, resulting in faster performance, reliability, better stability and greater security. They are also an escalation point for Help Desk ticket resolution. The Desktop Services team actively researches new technology to improve services and reduce the County's carbon footprint. This team also performs support for the County's computer training rooms.
