**Program Characteristics:** In Target

**Executive Summary**

Multnomah County has made a significant financial investment in our technology infrastructure. This program provides for the lifecycle management and replacement of outdated, unsupported, broken or damaged Information Technology (IT) assets allowing the County to spread the cost of the equipment replacements over multiple years and keep pace with rapidly changing technology.

**Program Summary**

This program supports the IT asset management lifecycle replacements for desktop and laptop computers, smartphones, iPads/tablets, monitors, desktop software, network router and switching equipment, telephones, data center servers and storage, printers, copiers and other output devices. It also supports the acquisition and disposition of hardware in a safe and environmentally friendly manner. Currently, the refresh schedule for laptops is three years and desktops is four years. The County looks for opportunities to assist the local community via donating operational retired equipment via Free Geek and local public schools, e.g. Portland Public Schools.
