Program Description

The IT Portfolio Services team works directly with Library Leadership, Library Committees, and a broad range of IT and Library managers to prioritize, plan, coordinate, prototype, and deliver solutions that meet the quickly changing needs of Library patrons and staff. The program coordinates a wide range of IT desktop, network, and telecom operations within IT, including the maintenance and support of existing systems through life-cycle planning, usage reporting, mobile device management, development of library patron accessed systems, onsite installations, and ensuring resource accountability and documentation of solutions. Team tasks include coordinating security and contract reviews, facilitating enterprise IT initiatives with Library stakeholders, reviewing/refining solutions in Library committees, informing Library staff of major changes, and ensuring the Library's accessibility and digital equity goals are met in our service delivery. Our goals are to ensure solutions align with emerging Library needs, the Library's Strategic Plan, and the Department of County Assets (DCA) Strategic Plan, and are continually improved over time.

Operational Strategies include:

- 1) Applying IT resources focused on new project requests in accordance with Department governance forums including consideration of Workforce Equity Strategic Plan (WESP) and DCA Strategic Plan as guidance.
- 2) Evaluating existing solutions and identifying opportunities for refinement, consolidation, retirement, replacement, or other means of improving solutions to meet changing Library needs.
- 3) Following the DCA "Think Yes" customer service principles to ensure creativity and partnerships that provide for clear, sustainable and equitable solutions.

Performance Measures Descriptions

Our portfolio is using metrics from DCA-IT's Service Now ticket system, including Work Tasks, Change Requests, Projects, and Incidents. Included in our FY measurements are counts of these taken from Library-specific support queues that support MCL's applications, desktop, mobile devices, vendors, LCB & OPME support, and general MCL staff requests.
