Program #78317 - IT Dat	ta Center & Technical Services			3/4/2020
Department:	County Assets	Program Contact:	Gary Wohlers	
Program Offer Type:	Internal Service	Program Offer Stage:	As Requested	
Related Programs:				
Program Characteristic	s: In Target			

Executive Summary

Data Center Operations and Technical Services provide the hardware, software installation, maintenance, troubleshooting, and the technical and operational support for all County computing and printing systems. These systems provide critical services to residents and visitors and must be maintained in a highly available, secure and recoverable environment. This program includes 24x7x365 operation of the data centers with Operations and Technical Service staff supporting restoration of services during disruptions 24x7.

Program Summary

Data Center Operations and Technical Services provide hardware and software management, server system maintenance, software upgrades, problem resolution, server, storage and print management, asset tracking and after-hours support for all County business systems running in the data center(s). This program also provides vendor management for data center hardware and software systems. Included in this offer are the Technical Services staff who provide software and hardware architecture design, planning, acquisition, installation and capacity planning for computer room hardware. Additional services provided by this program are data backup, restoration services, disaster preparedness, storage management, emergency response, print queue management, desktop scripting and physical data center security. The primary data center is located in the East County Courts facility. A secondary data center is located in a leased facility in Hillsboro and provides the capability for server and storage expansion and disaster recovery.

Performance Measures							
Measure Type	Primary Measure	FY19 Actual	FY20 Budgeted	FY20 Estimate	FY21 Offer		
Output	Percent of recovery data available off site and refreshed at least once every 24 hours.	99%	99%	99%	99%		
Outcome	Percent of production system scheduled availability for hardware and operating systems	99%	99%	99%	99%		

PM #1 Output measure - ensures that backup data is available offsite on disk or tape in the event of equipment failure or service disruption

PM #2 Outcome measure - measures the availability of production systems. The goal is minimum disruption in business processes and services due to system outages
