Executive Summary

In FY 2014, the Board of County Commissioners approved a Sole Source Exemption for vendor Tyler Technologies under Sole Source Rule 47-0288(1). In June 2014, Multnomah County executed a multi-year contract to provide the County with Tyler Technologies' Orion CAMA/Tax Standard software system, support, and professional services required to customize, enhance and implement the system. The system is rolling out in phases from FY19 through FY21.

Program Summary

The Division of Assessment, Recording and Taxation (DART) implemented a new system that features integration among al DART functions including GIS, Recording, real and business personal property assessment, tax collection and distribution. The program mission is to improve assessment and taxation services to the customers of Multnomah County by replacing legacy software with current technology, enhancing integration with other applications. The new application reduces systemic gaps and duplication of data existing in our current environment. It increased staff efficiency and the ability to accommodate an increasing workload, playing a key role in e-government for Multnomah County, employing an IT architecture that considers integration with County standard infrastructure. The program goals and objectives are: 1) Acquire and implement available information technology, replace the current Assessment and Taxation computer application, achieve greater efficiency while maintaining or improving accuracy and compliance for A&T business functions; 2) Reduce costs of operations so resources can be more productively used; 3) Improve public accessibility and convenience of assessment, taxation and recording services via web-based electronic and online resources, while maintaining appropriate control over publicly sensitive personal information.

In FY21, the remaining project deliverables are to be completed and paid including: Tax Collection End-to-End Application Testing, UAT Development Support, Acceptance Support, Final Acceptance and Retainage Payment.
