Executive Summary

Vehicle replacement planning is provided as an interdependent function. The key objective is to administer the life-cycle replacement schedule and collection of replacement funds on assigned vehicles and equipment (capital expenditures). This service is responsible for keeping County agencies supplied with vehicle and equipment options that support their core operational missions.

Program Summary

The Fleet Vehicle Replacement program provides the following services:

- -Collects and manages the funding for future replacement of vehicles and equipment;
- -Specifies, bids, awards, receives, inspects, prepares for service, and assigns replacement vehicles and equipment;
- -Administers the vehicle and equipment re-sale program (surplus disposal), using revenue received to offset future vehicle and equipment purchases:
- -Establishes and administers the life-cycle replacement schedule used to determine collection of replacement funds on assigned vehicles and equipment. The collected funds are used to buy new vehicles after the predetermined years of life are met:
- -Collaborates with County agencies to evaluate the following elements when considering purchase of a new or replacement vehicle or piece of equipment: vehicle utilization (miles driven/time of operation); agency operational needs; current working condition of vehicle; vehicle downtime and predicted future repair costs; safety; and sustainability;
- -Ongoing evaluation of opportunities for electric and hybrid vehicles when purchasing new vehicles.

The Fleet Vehicle Replacement Program is the primary contributing factor to the following areas in the Local Government Operations component of the 2015 Climate Action Plan:

- -19K-Develop a County fleet strategy that incorporates carbon emission reduction, electric vehicle and low-carbon transportation fuel goals:
- -19L-Purchase electric, plug-in hybrid and hybrid vehicles whenever they meet the user's needs. Include installation of electric charging stations where appropriate.
