Executive Summary

IT Services provides leadership and development resources for the library's technology vision and digital strategy, ensuring that the library has robust and sustainable information technology that supports innovative and progressive service to Multnomah County's diverse community. IT Services maintains computers, mobile devices, and equipment for public and staff use; wired and wireless networks across all library locations; and applications integration, development, security, and support for patron learning, creation and staff productivity.

Program Summary

IT Services works with partners inside and outside the library to plan, define and develop leading edge technology solutions that align with patron and staff needs and support the library's strategic priorities.

IT Services maintains more than 1,000 public computers and mobile devices, related software and servers, high-speed internet access and a wireless network in library facilities for use by the general public. Library users can search the catalog of books and other materials; view and manage their library accounts; download e-books; stream audio and video content; use research databases and other electronic resources; and access the internet for educational, business and personal use. Children and adults use library computers and tablets to do personal and business research, complete homework assignments, apply for jobs, find recreational reading, communicate with government agencies, manage their library accounts and participate in the social web.

Public computers also provide office automation software, such as word processing, to accomplish personal, business or school work. The library has computers and software in training rooms, teen afterschool homework lounges, and for checkout to be used in libraries with the library's public wireless network. Many public computer users have no access to a computer or high speed internet at home, so the library is their only window to the world of 21st century technology, communication and information.

IT Services also maintains more than 600 computers, related equipment and software for library staff, supporting general office computing and library systems such as the library catalog, patron database, circulation system, materials acquisition system, website, provision of electronic resources and other internal operations.

Performance Measures

| Measure Type | Primary Measure | FY17 Actual | FY18 Purchased | FY18 Estimate | FY19 Offer |
|--------------|--|-------------|----------------|---------------|------------|
| Output | Number of public computers | 908 | 930 | 1,036 | 1,036 |
| Outcome | % of time wired public internet computers are in use | 57% | 60% | 57% | 57% |
| Output | Number of wi-fi sessions | 1,555,839 | 1,700,000 | 1,590,000 | 1,700,000 |

Performance Measures Descriptions

Performance Measure 1: Additional loaner laptops were added.

Performance Measure 2: This measure is trending downward due to increased wireless access in all library locations and the addition of loaner laptops.

Performance Measure 3: The library's public wi-fi network is accessed by people using their own devices as well as those using library loaner laptops and tablets: library wi-fi is an important service to bridge the digital divide.

Legal / Contractual Obligation

The budget reflects the passage of Measure 26-143: "Form Library District with permanent rate to fund library services," November 2012 General Election. The district summary states in pertinent part: "If approved, the Multnomah County Library District would be formed with a permanent rate dedicated to library services, operations, books, materials, programs, activities and oversight of the district. Formation of a District would ... prevent reductions in services, programs and activities, and hours."
