**Summary:** Integrated Library Services (INTS) provides equitable access to diverse, dynamic, and relevant collections of physical books and digital information for all ages. Last year, INTS procured, processed, cataloged, and made available 148,000 new physical items available to the public.

**Program activity:** This program selects, purchases, processes, catalogs, and distributes all circulating Library books and other materials in physical and electronic formats. INTS includes several distinct teams and functions including the following:

- The Selections team chooses books, e-books, movies, and other materials for Library collections in five service languages and two cultural areas.
- The Cataloging and Processing team makes sure that all of more than three million physical and electronic items can be found in the online catalog, and it processes physical materials to ensure they are ready for use by the public.
- The Acquisitions team ensures that books and Library materials purchased from vendors are received and paid for.
- The Interlibrary Loan Team acquires items from other libraries on behalf of patrons.
- The Integrated Library Systems team keeps the Library's online catalog and circulation system running smoothly.
- The Access team works on policies, procedures, and related training for staff to keep the checkout process simple.
