

Multnomah Other Billing Summary of Changes 1/1/2022

Effective 1/1/2022, the Multnomah Other Authorization Rules and Fee Schedule has been updated. It took a while because we worked closely with the Oregon Health Authority. The new additions are highlighted in **blue**, removals are highlighted in **red**. Some amounts have increased, updates have been made to the Guidelines & Tips, place of service codes, modifiers, and the services provided sections.

Tab #1 Mult Other Auths:

- **Procedure codes have been added to all of the A&D Outpatient, the A&D Residential, and to the A&D Withdrawal Management**

Tab #2 Mult Other Codes & Fees

- **New codes, and modifiers have been added and amounts have been increased**
- **Place of service codes, modifiers and services provided have been added**

Tab #3 Mult Other Business Rules, no changes

Tab #4 Specialty Codes & Fees: procedure code H0018 has been added

An email will be sent to providers to inform them which claims Multnomah Other will be asking PH Tech to have reprocessed and paid. We will also be informing providers if their usual and customary rate submitted paid less than the new updated higher rate amount, these providers will need to submit corrected claims at the new or higher rate to obtain the new updated rate amount(s).

This memo will be posted on the Addiction Provider Resources [website](#), labeled 10/2022 Memo: Billing Changes. The updated highlighted version of the MultOther Auth Rules & Fee Schedule will also be updated on the website along with a final version.
