Portland, we can do more!

Our city has stalled. As our city has grown, it has become increasingly unlivable. Small changes will not solve our biggest problems: unaffordable housing, inefficient transportation, and the homelessness epidemic. We must have the vision and the will to make fundamental changes.

We can do more...

... to make renting affordable by scaling rent to income.

A landlord can always choose to not be a landlord, but a tenant can never choose to not be a tenant. This imbalance can be corrected by making rent a percentage of the market value of the rental equal to the percentage of the median income the tenant earns.

... to make transportation efficient, clean, affordable, and safe by separating vehicle types across different roads and making public transit fareless.

Our roads have reached their capacity for drivers. We must look to other modes of transportation to efficiently move around the city. By dedicating our local roads to small personal vehicles and fareless public transit, we increase the capacity of such roads, allowing for more people to move around the city more quickly and efficiently, while maintaining thoroughfares for large vehicles.

... to ease the burden of homelessness by identifying safe zones for our homeless residents.

The city cannot solve homelessness because it stems from fundamental problems across all of society. The city must focus on balancing the presence of homeless residents with our businesses and other residents, while advocating to the Governor and Legislature to address the causes of homelessness.

Fair Housing, Fareless Transit

I am going to work to do more, and I hope you will join me. THANK YOU for voting!
