- Since taking a temperature involves standing closer than 6 feet, it is preferable to ask the guest to mask for this process.
- Facilities can use their own wisdom about guests taking their own temperature, being careful to disinfect any items that more than one person is touching.
- Do not note actual temp or symptoms. This is personal health info and should not be documented.

Thermometers: recommend Non-Contact Infrared Thermometers. JOHS has these in stock currently. Disposable acceptable.

Social Worker for Medical Motels: 503-318-9262.
