Liaison updates

Liaisons with subject-matter expertise have been identified to support community organizations, businesses, and agencies and are meeting weekly. Liaisons are listed below and are available to members of their respective sectors. Requests for additional sectors to be created that are not covered by the established liaisons can be sent to the Liaison Group Supervisor. **If you are interested in serving as a liaison, please contact the Liaison Unit Leader.** Please note that the cost for non-county staff interested and able to fill vacant roles will be the responsibility of their organization.

The liaison unit comprises 23 sector liaisons. These liaisons support community members by providing education and resources. They also listen to their members and elevate creative ideas and any questions to the EOC. Over 2,463 people participate in the liaison program and help spread accurate information throughout our community and beyond.

Regularly Scheduled Calls:

- Every Tuesday at 9am, the **Liaison Sector Leaders** have a meeting to share updates related to the EOC, public information, and activities.
- The **Culturally Specific Communities Liaisons** are holding a Communities of Color call on Thursdays 2-3pm.

- **Business Liaisons** participate on the FEMA Regional Grocer calls each Wednesday from 11am-Noon.
- The **School & Childcare Liaison** is holding daily 1pm calls with public K-12 school, a weekly call on Wednesdays at 11am with private K-12 schools, as well as communicating daily with child care providers through email.

Aging & Disabilities, Veteran Services, Intellectual & Developmental Disabilities

Current Regional Disease Modeling

Figure 1: Revised model calibration with the latest case data, showing the timing of different interventions, and approximately 1,750 infections (80% forecast interval: 1,200 to 3,000) by March 28th. Dotted lines correspond to reductions in transmission relative to baseline, from left to right, of 10%, 20%, 35%, and 55%. The impacts of these interventions were estimated by calibrating to numbers of positive diagnoses (dots), deaths, and hospitalizations (not shown).

COVID-19 projections, Oregon

Figure 2: Scenarios projecting estimated epidemic trends with: a return to earlier measures (schools closed but businesses reopen), showing epidemic rebound; a continuation of current measures including the stay-at-home order, with active infections slowly decreasing; and a further reduction in transmission (e.g., improved testing and contact tracing), showing a rapid decrease in new infections.

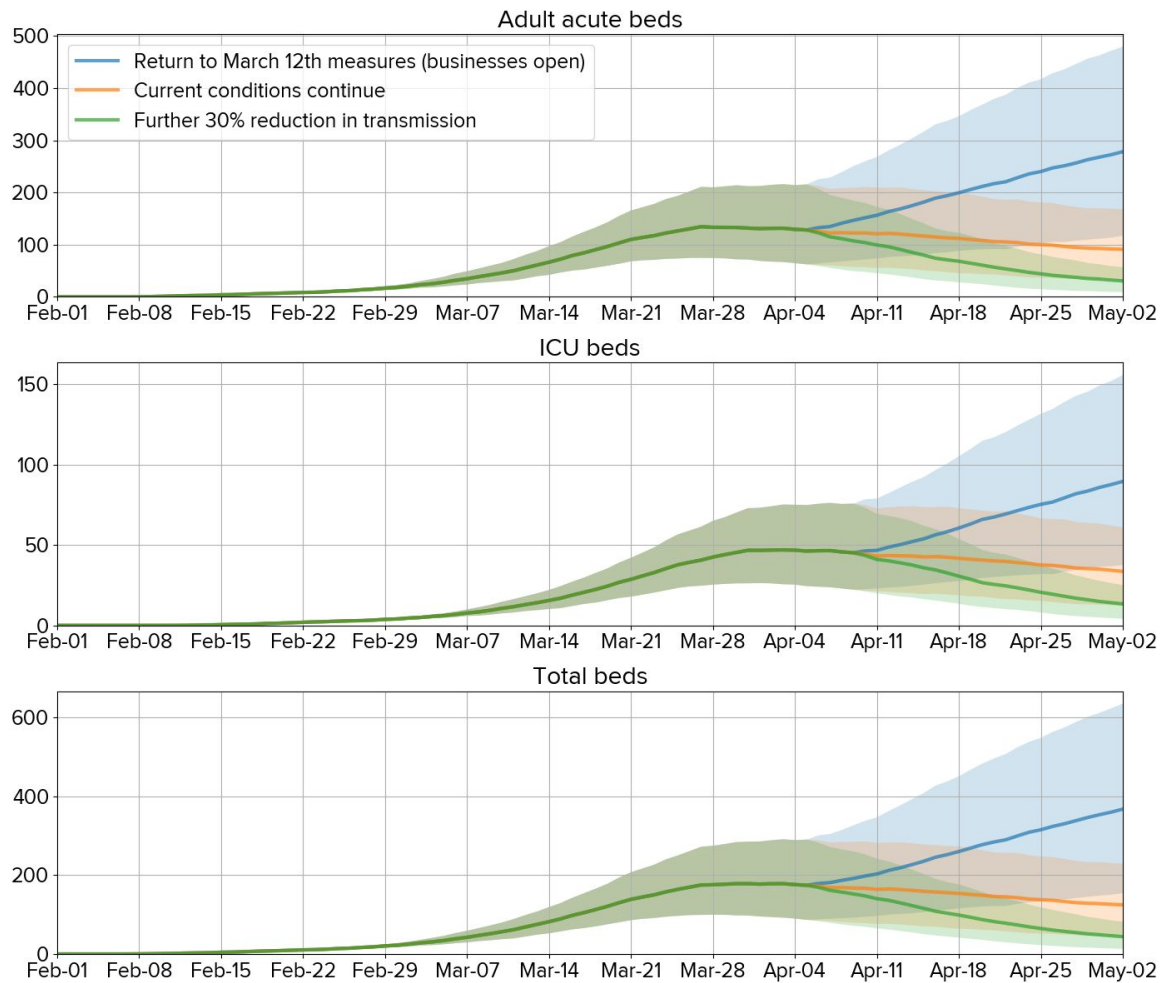

Figure 3: Estimated demand on the health system. Expected demand for hospital beds is predicted to remain relatively constant before decreasing, assuming current or strengthened interventions and continued high compliance.

Updates from outside the County

State

- >The State continues to distribute PPE to County’s based on the allocation guideline from Oregon Health Authority. They have established a warehouse for all of the stock to arrive and be distributed from. County’s no longer need to order PPE from the State as it will be pushed when it arrives.
