

Threshold for Re-opening Multnomah County

Status report for Wednesday, May 20, 2020

To be considered for Phase I reopening, each county must submit a proposal that shows the county meets several [prerequisites](#), and that as part of a health region, it meets additional requirements.

In addition to the state's criteria, Multnomah County will continue to evaluate the phases of re-opening the economy based on a health equity framework, prioritizing those at greater risk and adapting as necessary to the evolving situation.

Below we show [where Multnomah County is positioned](#) in each of those criteria. Once those criteria are met, the County will submit its proposal to the state.

Spread of COVID-19 The following metrics are measured at the County level	
Percentage of emergency department visits for COVID-19-like illnesses are less than the historic average for flu at the same time of year: <ul style="list-style-type: none">• The County meets this threshold.	 Met
A 14-day decline in COVID-19 hospital admissions <ul style="list-style-type: none">• The County meets this threshold.	 Met
Reduced impact on communities of color <p>A 14-day decline in hospital admissions among people of color. The County meets this threshold.</p> <p>Multnomah County will continue to analyze disease burden among communities of color, develop and share strategies to achieve health equity in partnership with communities of color.</p>	 Met

Contact Tracing

The following metrics are measured at the County level

15 contact tracers per 100,000 people

- The County currently employs 45 staff who conduct contact tracing.

In Progress

Contact tracing workforce is reflective of the county and able to work in needed languages

- More work is needed to meet this threshold.

In Progress

Prepared to trace 95 percent of all new cases within 24 hours

In Progress

Isolation Facilities

The following metrics are measured at the County level

Hotel rooms or shelter locations for people who cannot self-quarantine if required, or who test positive and cannot self-isolate.

- The County meets this threshold.

Met

Provide a narrative of how we will respond to three outbreak situations in the county.

Multnomah County follows [OHA investigative guidelines](#) on all cases and outbreaks of COVID-19. The County has prepared detailed narratives on its strategies for prevention, identification, and response for high risk settings:

- [Scenario 1: shelter](#)
- [Scenario 2: food processing plant](#)
- [Scenario 3: long term care facility](#)
- [Scenario 4: Corrections](#)

The County meets this threshold.

Met

Testing Capacity

The following metrics are measured regionally

Able to administer testing at a rate of 30 per 10,000 per week.

- The region meets this threshold.

Met

Sufficient testing sites accessible to underserved communities

- More work is needed to meet this threshold.

In Progress

Healthcare Capacity

The following metrics are measured regionally

Able to accommodate a 20-percent increase in hospitalizations.

- The region meets this threshold.

Met

Personal Protective Equipment

The following metrics are measured regionally

Hospitals must report supply daily through Oregon's hospital capacity web system

- The region meets this threshold.

Met

Hospitals must have an adequate supply of PPE

- The region meets this threshold.

Met

Personal Protective Equipment (continued)

The following metrics are measured at the County level

Counties must have sufficient PPE for first responders

Emergency first response agencies serving Multnomah County have submitted attestations to having sufficient PPE. The County meets this threshold.

Met

PPE for key constituents

In addition to state requirements, the County is evaluating the needs of health and social service agencies essential to community health and safety, as PPE shortages are likely to impact these groups first.

More work is needed to meet this threshold.
