**Program Offer Type:** New **Program Offer Stage:** Proposed  
**Related Programs:** 90009A, 90010  
**Program Characteristics:** One-Time-Only Request

**Executive Summary**

This program offer provides funds for ranked choice voting (RCV) system software maintenance fees and two full-time limited duration positions in the Elections Division. The positions will support voter education, outreach, and customer service, including for implementation of RCV for City of Portland contests by the 2024 General Election and for Multnomah County contests by the 2026 General Election, as well as implementation of the new Oregon Votes registration database. The one time only personnel funds will pay for the continuation of a limited duration voter education and outreach Program Technician (bilingual) position and limited duration Clerical Unit Supervisor position that were established on a pilot basis with one-time-only (OTO) funds in FY 2023.

**Program Description**

The FY 2023 Adopted Budget provided one time only funds for two limited duration, full-time pilot positions in Elections: a Program Technician (bilingual) in Voter Education & Outreach (VEO) and a Clerical Unit Supervisor to support front-line customer service staff. This program offer provides continued one time only funds for these positions, supporting implementation of RCV. This program offer also provides one time only funds for an increase in the annual maintenance fee associated with necessary upgraded software for ballot design and vote tabulation to support County implementation of RCV.

The Program Technician assists in culturally-specific voter education activities and community outreach, and provides language services. The position supports data collection, communications, strengthening VEO program language assistance services, and continues to build a framework to support voting for citizens who speak a language other than English in the home. The Program Technician directly supports the RCV implementation consistent with the division's vision of conducting accessible elections, providing outreach and education for all potential voters and candidates, and centering the needs of communities of color, people with disabilities, and speakers of languages other than English.

The Clerical Unit Supervisor provides leadership to Elections staff who are the first point-of-contact to voters that need help with voter registration and voting. This includes supporting staff in testing of the new statewide Oregon Votes registration database. Testing of the new system begins in spring 2023 and is scheduled to go live in summer 2023. The system will also enhance VEO activities by streamlining electronic registration and allowing for improved data collection on the effectiveness of voter outreach activities to underrepresented communities. As the County implements RCV, the position will lead customer service staff fielding an anticipated increase in voter assistance requests. The position will provide leadership capacity to support frontline workers by reinforcing training on language interpretation services, racial equity, Think Yes customer service standards, and trauma informed service delivery.
