

**Program #90014 - Levee Ready Columbia (IGA Obligation)** FY 2024 Proposed

**Department:** Community Services **Program Contact:** Lee Girard  
**Program Offer Type:** Existing **Program Offer Stage:** Proposed  
**Related Programs:**  
**Program Characteristics:** One-Time-Only Request

**Executive Summary**

The Levee Ready Columbia program supports work to secure the Columbia River levees' accreditation, reduce the risk of catastrophic flooding, and protect the health and resilience of County communities and the broader region. The FY 2023 budget includes a cash contribution to fund the program administration of the Levee Ready Columbia partnership to ensure that the region addresses federal requirements for levee accreditation. This payment fulfills the fifth year of a five year intergovernmental agreement.

**Program Description**

As a regional partner in Levee Ready Columbia, the County has supported the work necessary to ensure improvements are identified and addressed within four drainage districts along the Columbia River levee system in Multnomah County. Failure to address identified deficiencies puts 7,500 residents (of whom 45% are people of color according to 2020 Census data), critical public infrastructure (including the state's second largest source of drinking water), businesses and employment centers, community assets, and hazardous materials at risk of flooding. Failing to act also risks loss of levee accreditation under the Federal Emergency Management Agency's (FEMA) National Flood Insurance Program as well as noncompliance with the US Army Corps of Engineers Rehabilitation and Inspection Program.

The partnership has made major accomplishments in the past five years, including completing evaluations of the levee systems, securing federal investment through a US Army Corps of Engineers New Start project, and successfully advocating for the passage of state legislation to create a new Urban Flood Safety & Water Quality District with the authority necessary for long-term governance and funding of the levee system. Work is currently underway to transition to the new district governance, coordinate with the US Army Corps of Engineers on a feasibility study for modernizing the system, and scope remediation projects for completion of the certification and accreditation processes. This work will be supported by Levee Ready Columbia program staff funded through partnership financial contributions until the new district is able to collect revenue.

In addition to providing financial support to Levee Ready Columbia, the County will continue to act as the fiscal agent in administering State grants and loans secured in 2016 for the regional partnership. The County will also continue to provide representation in partnership meetings.
