Executive Summary

The Code Compliance program protects the health and safety of the unincorporated areas of Multnomah County by enforcing the County’s land use, transportation, solid waste and grading and erosion control codes. This program offer proposes to restore 1.0 FTE that was cut from the compliance program in FY 2020. This new FTE will be primarily dedicated to field work.

Program Summary

The County’s Land Use Planning (LUP) code compliance program has long struggled with insufficient resources. In FY 2020, the program was reduced from 2.0 to 1.0 FTE to meet the general fund constraint. That staffing reduction negatively impacted the program's capacity and performance. Currently, one code compliance officer serves the entire unincorporated area, which includes 23,000 residents, and the enforcement backlog is over 250 cases.

The County and community both benefit from an effective code compliance system that ensures the health and safety of residents and protects the environment. This program offer has been crafted in response to community feedback that current service levels are inadequate, which has created an environment that fosters repeat violators. More staffing is necessary to respond to, investigate, and resolve code violation complaints.

The restored position will focus on compliance related field work. Field work includes complaint investigations for land use, transportation and solid waste, and conducting erosion control inspections.

Having one FTE dedicated to field work will enable the other program staff member to focus on handling the program’s administrative needs, responding to complaints, preparing enforcement, case documentation, processing voluntary compliance agreements, and updating administrative rules and procedures.
