

# CONTACT TRACING: HOW IT WORKS

**1**

When someone tests positive for COVID-19, their doctor notifies the Health Department

**2**

We call the person who tested positive for COVID-19 to see who else might have been exposed

**3**

Once we know who else might have been exposed, we contact those people

**4**

Everyone is asked to self-isolate for about two weeks to stop the spread of COVID-19

## CONTACT TRACERS WILL NEVER ASK ABOUT YOUR:

- Social Security Number
- Credit Card Number
- Bank Account or Billing Information
- Immigration Status

**We do not share** your identity with the federal government.  
**We do not share** information with your landlord.  
**We do not share** information with law enforcement, or ICE (Immigration and Customs Enforcement).
