Thank you for the opportunity to work with our East Multnomah County Soil and Water Conservation District. I look forward to growing the programs that support our county's agricultural community and urban neighborhoods.

Together we can build healthy habitat in our urban spaces, provide voluntary conservation incentives to increase the profitability and sustainability of agriculture, and create opportunities for new farmers to access farmland.

As the owner of a small farm in Corbett, I know the practical value of the programs offered by the District. Programs that conserve water also save farmers money. Programs that reduce noxious weeds aid in pasture management. Programs that connect new farmers with farmland ensure that that the next generation can continue to build successful careers in agriculture. It would be an honor to support and expand these important programs.

Thank you for your consideration,

-Jasmine
