This Exhibit is another representation of Barbara's controlling and aggressive/bulling behavior.
Emails began on April $10^{\text {th }}$ of 2018 with Barbara Hentges contacting Statewide land survey for an inquire of a survey service.

Statewide made an error in the initial communication on what property was being requested for survey and these were the following email exchanges.

Subject: Re: Q241-2018 Barbara Hentges Boundary Survey Estimate

Sorry, not interested. That's pretty incompetent that you've not even marked the correct property on your attachment. 314-hundred block would be west of 317 . West is toward Portland if you need a reference.

We'll find someone who knows what they're doing, thanks.

Hi Barbara,
I apologize for the confusion. We've recently completed some work in your area and attached the wrong information when replying to your enquiry. Attached are the following documents:

- Aerial view of your property
- Recorded Survey 38100 which contains the South property line in question
- The tax map for your area which reflects the division of Block 46 into two lots

Please let me know if we can be of further assistance.

Thanks,
Jocosa Bottemiller

Subject: 19038075 PRE-SURVEY

This onecall ticket number has been expired for almost a month. PGE flagged along our property in such a way that prevents us from mowing grass properly. Since it is the requestors responsibility to remove said flags, should I assume you'll be out tomorrow to remove them? Please do not engage the dogs, they do bite.

Greg,
Maybe you recall this email. I would not hire your company for any reason after learning you're not adept at utilizing maps.

In the future, stay off my front porch.

Asswipe, it's your responsibility.
Fuck off, do not contact me again. Any future attempts will be considered harassment under ORS and entering my property will constitute trespassing...this means you personally so any future surveying will need to be performed by someone else.
