County Charter provides clear direction about how to apportion Commissioner Districts

- Transparent
- Fair, equal representation

3.15 Apportionment of Commissioner Districts

Not later than August 1 in the year of the official release of each federal decennial census for Multnomah County, the auditor shall determine the population distribution among the commissioner districts specified by this charter. If the population of any commissioner district is more than 103 percent of the population of any other commissioner district, the auditor, in consultation with the Multnomah County elections division, shall prepare and present to the board of county commissioners not later than August 1, a plan for modifying the boundaries of the districts so that the population of no commissioner district will be more than 102 percent of the population of any other commissioner district, notwithstanding the delineation of commissioner districts by this charter. The board of county commissioners shall, within 45 days of the submission of the report, alter the boundaries of the commissioner districts as necessary by ordinance to provide for an approximately equal population distribution. Change in boundaries of the districts shall not affect taking of office of a commissioner-elect with respect to the term of office for which elected prior to the adoption of the reapportionment. The auditor shall, as nearly as possible, retain the general geographic characteristics of districts established by this charter.

3.15 Apportionment of Commissioner Districts

Who?

County Auditor

Does what?

- Determines the population distribution among the Commissioner Districts
- Based on results of the decennial U.S. Census

3.15 Apportionment of Commissioner Districts

Is the population of any Commissioner District more than 103% of the population of any other Commissioner District?

No = no redistricting

Yes = redistricting

3.15 Apportionment of Commissioner Districts

Who?

County Auditor, in consultation with Multnomah County

Elections

Does what?

Prepares a plan for modifying district boundaries

Image from Multnomah County

3.15 Apportionment of Commissioner Districts

The Plan

- Modifies district boundaries so that the population of no Commissioner District is more than 102% of the population of any other Commissioner District
- Charter directs the Auditor to, as nearly as possible, retain the general geographic characteristics of Commissioner Districts

3.15 Apportionment of Commissioner Districts

When?

The Auditor must present the plan to the Board of County Commissioners no later than August 1 in the year that the decennial U.S. Census is released

- 2021
- Usually the county can access results in February of the release year

3.15 Apportionment of Commissioner Districts

Who?

Board of County Commissioners

Does what?

Within 45 days of receiving the Auditor's report, the Board alters the boundaries of Commissioner Districts as necessary by ordinance

We'll show our work!

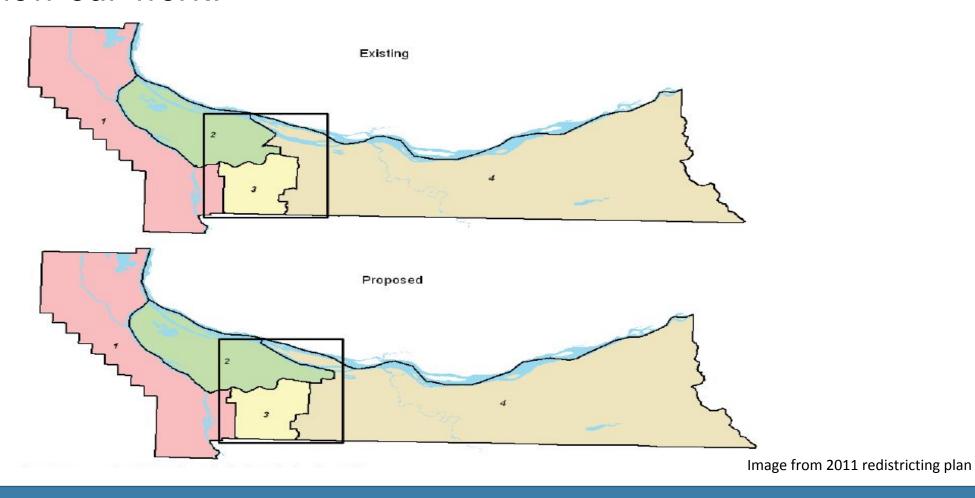

Exhibit 4. Population Variance in Existing Districts

Commissioner District (Representative)	2010 Population	
District 1, West (Kafoury)	186,190	
District 2, North (Smith)	173,315	of the population of
District 3, Central (Shiprack)	181,220	District 2, more than the 103% threshold.
District 4, East (McKeel)	194,609	un esnoia.

Exhibit 6. Populations of Proposed Districts

District	2010 Population	Percent of Smallest District	Percent Over (Under) Ideal
District 1, West	183,481	100.356%	(0.19%)
District 2, Central	184,228	100.764%	0.21%
District 3, East	182,831	100.000%	(0.55%)
District 4 East	184,794	101.074%	0.52%

Will my office propose redrawn districts in 2021?

It's very likely.

2001: District 4 was 22.4% larger than District 2, which mandated redistricting

2011: District 4 was more than 3% larger than any other district

- 12.3% larger than District 2
- 7.4% larger than District 3
- 4.5% larger than District 1

We will obtain suggestions from the Elections Division, which in the past have included:

- Avoid using boundaries that could change
 - City or school districts
- Use state legislative boundaries as a guideline, where possible

We will consider criteria established in

Oregon's Congressional and Legislative Districts; Reapportionment Law (ORS 188.010), where applicable.

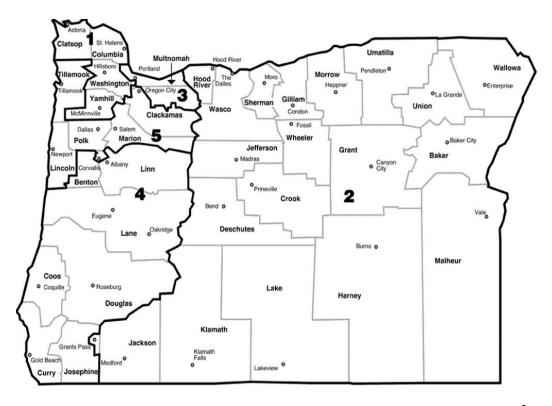

Image from Oregon Blue Book

State criteria for congressional & legislative districts:

- Contiguous
- Equal population
- Use existing geographic or political boundaries

State criteria for congressional & legislative districts:

 Not drawn for the purpose of diluting the voting strength of any language or ethnic minority group

This is also central to the U.S. Voting Rights Act.

- Non-controversial
- Population based
- Transparent
- Focused on providing equal representation

Governor Kate Brown's Office of Diversity, Equity and Inclusion

What was different for Oregon in 2020?

- Highly politicized census
- COVID-19 global pandemic
- First decennial census that could be completed online
- First time Oregon officially formed a Complete Count Committee
- First census that the State specifically set aside funding for outreach to Hard-to-Count communities

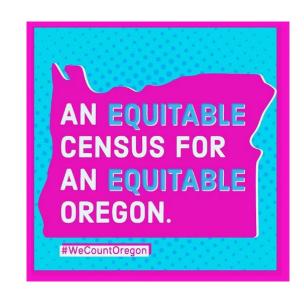

Investment in Hard-to-Count Communities

Hard-to-Count Communities and Populations:

- Include Black, Latino/Latina/Latinx, Asian, Pacific Islander, and Tribal and Native American communities, children under 5, rural residents, immigrants, refugees, people experiencing homelessness, and others
- These communities have been historically undercounted and underrepresented in census enumeration
- An accurate and complete count of all of Oregon's residents means fair political representation, distribution of public resources, and necessary data for equitable policymaking

CEFCO & We Count Oregon

CEFCO

Hard to Count Campaign

\$7.5M set aside by the State

Fiscal Agent: United Way of the Columbia-Willamette

We Count Oregon

Funding used for various field operations and media campaigns specifically focused on Hard-to-Count communities.

Oregon Complete Count Committee &

- 2020 Census advisory body to Governor Kate Brown and the State of Oregon
- First convened in April 2019
- The OCCC recommended strategies that safeguarded and promoted the 2020 Census
- Information collection and sharing
