Subject: RETR Dissemination Workshop 6/2/21 - SAVE THE DATE!

To:

Dear partners,

The Regional Emergency Transportation Route Update team is hosting a **90-minute Dissemination Event + Q&A** on **Wednesday, June 2 from 10:00am-11:30am**. The dissemination event will provide a brief, high-level overview of the Regional ETR Update results and feedback received from regional stakeholders during the 2021 review period. Most of the session will provide an overview of the robust GIS data, tables, and charts we have developed. We will also explain how regional emergency managers, transportation planners, and GIS analysts can use the ETR data layers in related projects. Please save the date on your calendars and plan to join us!

If you know of additional partners/colleagues who would be interested in attending, reply with their name and email so we can add them to our invitee list. We will be sending out a formal calendar invitation with Zoom details in the next week or two.

Thank you!
