

Join the **ACHIEVE COALITION** Monthly Forum on Black Health

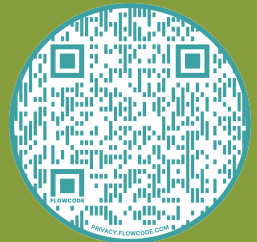

Collaboration, Healing & Community

What is the ACHIEVE COALITION?

- We are a collection of individuals and organizations who collaborate to end health inequities in chronic disease for the African-American and African Immigrant/Refugee populations in Multnomah County.
- Our group works to increase healthy food, breastfeeding, and chronic disease management offerings in the places people live, work, worship, and study.

How can I get involved?

- In order to join this coalition or receive email updates, you can contact Multnomah County-REACH's Community Health Specialist, James Demry, at james.demry@multco.us or 503-319-7240 or scan the QR code to the right.

Made possible with funding from the Centers for Disease Control and Prevention
