Executive Summary

Multnomah County Emergency Management (MCEM) coordinates disaster preparedness activities in Multnomah County. This includes planning, training, exercise and equipment procurement for staff and departments and coordination with cities, special districts and nongovernmental organizations. During events, MCEM will activate the emergency operations center to facilitate the appropriate response using people and resources throughout the county.

Program Summary

The MCEM program focus includes: 1) County preparedness, 2) Intergovernmental and regional preparedness, 3) Community preparedness and resilience and 4) the County's ability to continue critical operations in an emergency situation. MCEM regularly collaborates with local jurisdictions, districts and agencies engaged in emergency planning. MCEM understands that a resilient community can potentially reduce the burden on limited emergency response capacity in a severe emergency. For that reason, MCEM works with businesses, non-governmental organizations, faith based groups, volunteer organizations and directly with community members to encourage disaster resilience and create a coordinated response to disasters. MCEM fosters preparedness and community resilience through working relationships with a diverse group of community partner organizations.

Program activity is informed by the Emergency Management Performance Grant (EMPG) work agreement, which includes staff training plans, a rigorous disaster exercise schedule, disaster plan management and coordination with volunteer, State and Federal partners. During an emergency, MCEM activates and manages the County Emergency Operations Center (EOC) which is staffed by employees from various County departments to provide a single location where strategic direction, response coordination and resource support for incident response is carried out. In a disaster, Emergency Management functions as the state-mandated conduit for obtaining State and Federal resources to support local emergency response for the County, cities and districts, and it coordinates emergency and disaster declarations. After a disaster, Emergency Management coordinates with State and Federal agencies that provide post-disaster assistance and also guides the community recovery process. Annual exercise of Emergency Coordination Center and evaluation of performance of established objectives in an After Action Report (AAR).

MCEM can respond to requests from county and city public safety partners and can quickly set up an operations center to respond to county emergencies. MCEM also authors and updates several plans including the County Mitigation Plan and County Emergency Operations.

Performance Measures Descriptions

Outcome: There are 8 eligible funding areas, each with multiple planning activities, in the Emergency Performance Grant (EMPG). This annual measurement covers activities for a competent emergency management program. MCEM coordinates disaster preparedness activities including planning, training, exercise and equipment procurement for staff and departments and coordination with cities, special districts and nongovernmental organizations. Measures for FY 2022 are unknown until there is a return to normal operations.

Significant Program Changes

Last Year this program was: FY 2021: 10012A Office of Emergency Management

The Office of Emergency Management began to respond to COVID-19 in January 2020 and this response continues today. While the office hopes to return to a more normal operation in FY 2022, it is likely to be focusing on COVID-19 response and coordination activities at the beginning of the year. While in a response mode, many of the everyday activities including planning, training, exercises, mitigation, etc. will have limited support. The office also anticipates COVID-19 After Action Report activities to pick up in FY 2022 as response operations diminish, which will also reduce our capability to support more year "typical" activities.
