Transforming Justice: A Vision for Safe and Justice

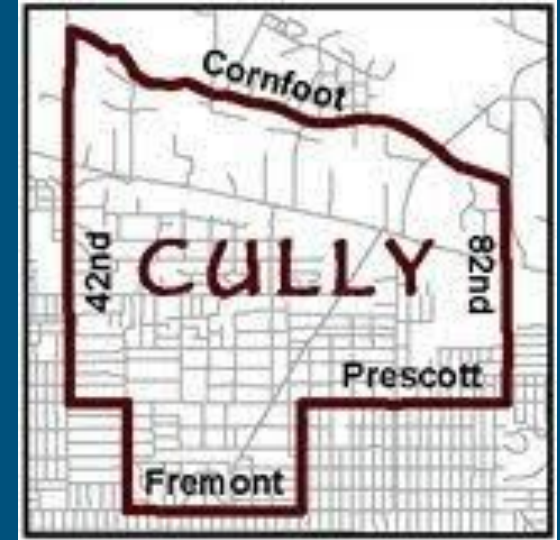

Overview: Values

Values:

The Reimagining Justice in Cully (RJC) project is grounded in the [Transforming Justice](#) Project, serving as an opportunity to pilot parts of four core strategies.

Values include:

- Centering the experiences and voices of Cully residents
- Uplifting success of place-based solutions
- Government and agencies support, not direct, the project
- Solutions are not pre-determined, but collaborative

Overview: Goals & Timeline

The goals of the RJC project (as determined by the BJA) are:

1. Increasing trust between the law enforcement officers that patrol the Cully neighborhood and the people who live there, and
2. Develop and implement a non-law enforcement intervention for low level crime

Approved timeline:

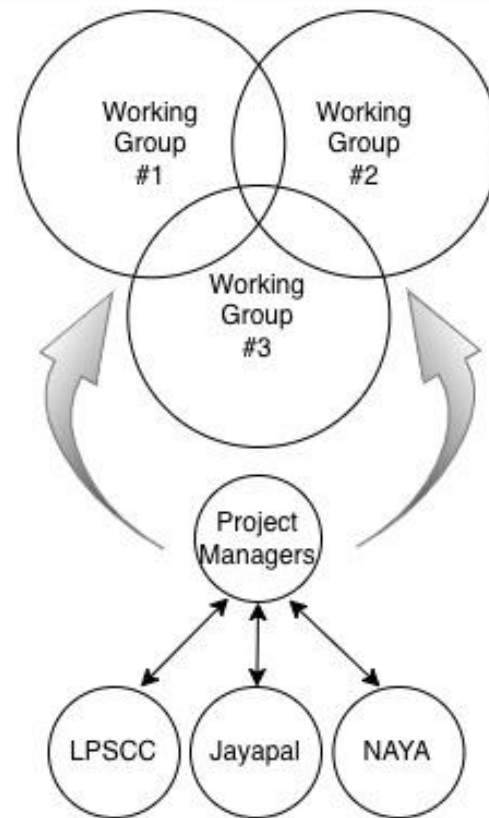

- Year 1: Planning (hire NAYA project manager, engage system partners, begin planning for community engagement)
- Years 2 & 3: Implementation
