

Multnomah County Detention Center (MCDC)

A maximum security, single-cell facility in downtown

Portland housing 448 clients. This is the only booking facility in

Multnomah county that sees the most acute medical, mental health and behavioral clients.

Inverness Jail

Medium security jail

that houses approximately 800 clients with a capacity of up to 1200. This facility also houses work crews and gives clients the ability to live in an open dormitory setting.

Juvenile Detention Home (JDH)

Located in the Donald E. Long building in SE Portland,

nurses here provide care to approximately 50-60 Juveniles on a daily basis.

Corrections

Community Health Nurses

Multnomah County Health Department, Corrections Health is accredited by:

National Commission on Correctional Health Care

October 3, 2019

As a Health Department Corrections Health employee you will be part of a work culture of respect, trust, understanding and belonging for the highly diverse populations served in the facilities and in the Multnomah County community.

Comprehensive Services

- Intake screening for medical/mental health/dental issues
- On-site provider evaluations (medical, mental health, dental)
- On-site OB/GYN specialist evaluations
- On-site x-ray and lab services
- Medication administration to clients
- Medical and mental health observation units
- Public health interventions (immunizations, health education, STD screening, and TB screening)

We have on-site Providers 5 days/week and 24/7 On-call Providers are available evening, nights and weekends

We are proud to have over 80 dedicated nurses providing care to Portland's most underserved, vulnerable and stigmatized populations. **Nurses are the backbone in Corrections Health.** This means you have autonomy within a team environment and are on the frontline of client care.

Client Care

- 24/7 access to RN care and treatments for clients suffering from medical and mental health issues
- Substance abuse/detox care
- Acute care for clients including medical emergencies, triage and assessments
- Chronic disease care management
- Safe housing for vulnerable people
- Medical and Mental Health Observation Modules
- Daily rounds by psychiatrist and mental health consultants

Teamwork! All of our nurses work in a positive, supportive environment to ensure everyone feels a part of the team.
